🪪 PROFILE

Self-taught Front-end developer and web3 enthusiast with 3+ years of experience providing impactful web solutions for diverse industry organizations. Skilled in designing, developing, and testing multiple web-based applications incorporating a range of front-end technologies.

🎨 SKILLS

Frontend Stack (Frameworks) *(HTML, CSS, JavaScript (ES6+), TypeScript, React, Next.js, Node.js)*, **Frameworks & Libraries** *(Redux, Formik, web3.js, Tailwind CSS, Styled-Components, Framer-Motion)*, **Tools & Databases** *(Git, GitHub, GitHub Actions, Webpack, Firebase, MongoDB, Vercel, Figma, Linux, AWS, Postman)*

💼 PROFESSIONAL EXPERIENCE

Frontend Developer, Trade Treegar 🔗   03/2022 – 06/2022 | Remote
- Managed and collaborated with the project manager and designer on the team to deliver the company's website before the product launch, which has currently been used to onboard over 10k+ users in 2 months.
- Translated UI/UX design wireframes to pixel-perfect code implementation.
- Stack used in this role: React, Next.js, Git, Github actions, Vercel, Figma.

Frontend Developer, Webstacky   07/2021 – 02/2022 | Remote
- Collaborated with a team of developers to completely recreate the agency's website with the Next.js framework. I adapted to the shift in technologies, learned them, and became a valued member of the team, solving problems and creating working solutions for the needs of the business.
- Built, tested, managed, and improved the front-end interfaces of decentralized/ non-decentralized web applications.
- Stack used in this role: Javascript, React, Web3.js, Git.

Frontend Developer, Zuri Team, Inc 🔗   03/2021 – 07/2021 | Remote
- Managed a team of over 20 members in a two-week hackathon. We were able to deliver 90% of the competition requirements.
- Built a full-stack stock market application that eventually won the project phase competition.
- Managed the project's codebase, and GitHub activities. I also mentored colleagues on code best practices, Git, and GitHub usage.
- Stack used in this role: HTML, CSS, SASS, Javascript, Figma, Git, Vercel.

Independent Frontend Developer 🔗   12/2020 – 07/2021
- Designed and programmed to pixel-perfection both client-based and personal projects, with HTML, CSS/SASS, Vanilla JavaScript, React, Next.js and Typescript.
- Utilized Git and GitHub for version control, continuous integration, and managing projects.
- Prepared and audited project proposals and budgets for freelance clients.
